FULL STACK DEVELOPER

Results-driven Full Stack Developer with under 3 years of experience in building and maintaining frontend and backend systems for web applications. Proficient in designing and implementing REST APIs, database management, and creating responsive interfaces. Skilled in optimizing performance and collaborating with cross-functional teams to deliver scalable, high-quality solutions by **leveraging AI-powered coding assistants to accelerate development and maintain organized, efficient workflows.**

WORK EXPERIENCE

Sr Mern Stack Developer , Huemn

January, 2025 - Present

Led the frontend team in building an AI-powered Studio Dashboard with modular architecture, real-time sockets, cache layers, and GraphQL integration. Developed collaborative blocknote, AI agents, workflow builder, chat, task & calendar management, and automation tools for a seamless, scalable user experience.

Full Stack Developer (SDE - I) , ZEVO360

May, 2024 - December, 2024

Designed, developed, and maintained scalable backend microservices to process and manage high-volume data with efficiency and reliability, using distributed database architecture and cloud-based solutions to support continuous data flow and low-latency performance.

Web Engineer , Creative Minds & Shell

December, 2022 - May, 2024

Developed robust backend APIs for diverse domains, including e-commerce, e-logistics, and coding platforms, seamlessly integrating multiple payment solutions and third-party APIs to enhance functionality and user experience.

SKILLS

- Typescript, Python, C++
- Copilot, Cursor, Lovable, GPT
- RESTful API, Node.JS, FastAPI, Django
- PostgreSQL, MongoDB
- AWS, DigitalOcean, Docker
- Git, RabbitMQ, Kafka
- System Design, HLD, LLD
- React.JS, Next.JS
- Bootstrap, Tailwind CSS, MUI
- Scikit-learn, Keras, Tensorflow
- Machine Learning Algorithms, NLP
- LLM, OpenAI, RAG, LangChain
- DSA, Strong problem-solving and critical thinking abilities

EDUCATION

Bachelor of Computer Science & Engineering

80% | May, 2024

Chhattisgarh Swami Vivekanand Technical University

- Studied Programming Fundamentals, Computer Architecture, Software Engineering, Operating System, DBMS, Computer Networks, OOP'S, and Data Mining.
- Organized and mentored participants at IdeaFiesta, a premier National-level hackathon.
- Contributed to building the startup ecosystem at Rungta Tech by supporting innovation-driven initiatives and entrepreneurial activities.

PROJECTS

EazyApply

- An automation utility that facilitates an agent that applies on various job portals (eg: LinkedIn, Naukri) in behalf of applicant.

QA/Documentation Parser

- An AI-powered tool that crawls and parses help doc from various well known sites (eg: instagram, openai, wordpress, etc) and extracts module/submodules with content summarization, enabling fast understanding and quick lookup.

The Oceann Voyage Manager and Mail

- AI-driven ERP and SaaS platform for the maritime shipping, drybulk, commodities trading, and decarbonization sectors. Automation of chartering, freight contracts, voyage/trade optimization, emissions/carbon reporting and related maritime operational workflows.

Ve Dashboard

- A centralized AI “operating system” for businesses. It aims to go beyond task automation, learning from interactions and providing real-time insights across functions like customer management, project tracking, etc.

Zevo 360

- Zevo360 is a parenting app that helps track age-wise developmental milestones and build positive habits, offering a structured roadmap to raise confident, well-rounded children.

Arpan

- Led the overall development of Arpan Utility. Designed the backend system and admin panel for the smooth flow of the application.

EarthBound Trading PVT LTD.

- Spearheaded the development of a multi-level marketing (MLM) ecommerce application tailored to facilitate product sales through a network of distributors.

Tata Advanced Systems

- Integrates API endpoints to frontend panel, implements authentication mechanism to handle backend services, fixed minor frontend bugs.

Mantra Logistics

- Designed the web application portal for the smooth tracking of transportation and logistics components. Integrated API endpoints using AJAX and JQuery

CERTIFICATIONS
